

Orange County Society for Calligraphy Regional Group Extended Studies presents

No Fear CASUAL ROMANS

I think the words MAJESTIC FORMAL ROMANS scares us calligraphers and we think we are not ready for them until we learn and practice many other calligraphic hands. BUT I believe studying these Roman forms (in a casual way) helps us with all calligraphic hands! The prerequisite for this class is a lot of patience and being able and willing to work slowly and play with our tools. No judgements, just loving these Big Guys and playing. Experience with the broad edge pen will be helpful.

- We will meet on the Zoom Platform once a week for four (4) weeks in June 2022. Tuesday afternoons from June 7th to June 28. Two hour Zoom classes from 3 to 5 pm. The class is limited to 20. Total Cost - \$40
 - Supplies needed are: Black gouache, Jet or Ivory Black. #4,5,6 Mitchell nibs and penholder, or equivalent Brause nibs. A pencil and pencil sharpener, regular pencils I use are 2B, 4B, and 6B and a Pentel .09 mechanical pencil. For practice paper use what you have, just not computer paper. The 8 squares to the inch graph paper is good for practice and studying the Roman proportions. Also have a few sheets of ATW or 90# Arches Hot Press or your favorite good paper. A more detailed list will follow after registering, but nothing you probably don't already have, .
 - There will be a fun project in this class (of course this is optional), we will be making a magazine collage book (a la Marsha Brady). If you want to do this start saving colorful magazines & catalogs.
